### Depositary Shares Offering

Depositary shares offered: 22,000,000 depositary shares, each of which represents a 1/20<sup>th</sup> interest in a share of the Issuer's 6.00% Mandatory Convertible Preferred Stock, Series D ("**mandatory convertible preferred stock**"). At the consummation of the depositary shares offering, the Issuer will issue 1,100,000 shares of mandatory convertible preferred stock, subject to the underwriters' option to purchase additional depositary shares.

Option for underwriters to purchase additional depositary shares: 3,300,000 additional depositary shares (corresponding to 165,000 additional shares of the mandatory convertible preferred stock).

Public offering price: \$50 per depositary share / \$1,100,000,000 total, excluding the underwriters' option to purchase additional depositary shares.

Dividends: 6.00% on the liquidation amount of \$1,000 for each share of mandatory convertible preferred stock per year (equivalent to \$60.00 per annum per share of mandatory convertible preferred stock, corresponding to \$3.00 per annum per depositary share). The dividend payable on the first dividend payment date, if declared, is expected to be \$15.50 per share of mandatory convertible preferred stock and on each subsequent dividend payment date, if declared, is expected to be \$15.00 per share of mandatory convertible preferred stock (equivalent to \$0.775 and \$0.75, respectively, per depositary share).

The Issuer will pay dividends in cash on each dividend payment date, and on August 1, 2013 or any earlier conversion date, the Issuer may pay dividends in cash, shares of the common stock or a combination thereof, at its election and subject to the share cap. The "share cap" is an amount per share equal to the product of (i) two and (ii) the maximum conversion rate, subject to adjustment as described in the depositary shares preliminary prospectus supplement.

Dividend payment dates: If declared, February 1, May 1, August 1 and November 1 of each year, commencing on November 1, 2010.

Authorized share condition: The Issuer has reserved 28,750,920 shares as designated shares (as defined in the depositary shares preliminary prospectus supplement) for conversions of the mandatory convertible preferred stock and the authorized share condition as set forth in the depositary share preliminary prospectus supplement is satisfied as of the date hereof; *provided*, however, that to the extent that the underwriters do not exercise their option to purchase additional depositary shares, the number of designated shares will be reduced proportionately (and, for

the avoidance of doubt, will in no case be less than 25,000,800 shares).

Mandatory conversion date: August 1, 2013.

Initial price: \$88.00.

Threshold appreciation price: \$109.12, which represents an appreciation of approximately 24.0% over the initial price.

Conversion rate per share of mandatory convertible preferred stock: The conversion rate for each share of mandatory convertible preferred stock will not be more than 11.364 shares of the common stock and not less than 9.164 shares of the common stock (respectively, the "maximum conversion rate" and "minimum conversion rate") (and, correspondingly, the conversion rate for each depositary share will not be more than 0.5682 shares of the common stock and not less than 0.4582 shares of the common stock).

The following table illustrates the conversion rate per share of the mandatory convertible preferred stock, subject to adjustment as described in the depositary shares preliminary prospectus supplement, based on the applicable market value of the common stock on the mandatory conversion date:

<b>Applicable Market Value Per Share on the Mandatory Conversion Date</b>	<b>Conversion Rate per Share of Mandatory Convertible Preferred Stock</b>
Less than or equal to the initial price	11.364 shares of common stock
Greater than the initial price and less than the threshold appreciation price	\$1,000, divided by the applicable market value
Equal to or greater than the threshold appreciation price	9.164 shares of common stock

If the applicable market value of the common stock exceeds the threshold appreciation price, the value of the common stock received by the holder of a depositary share upon conversion will be approximately 80.64% of the value of the common stock that could be purchased with \$50 in the concurrent common stock offering.

The following table illustrates the conversion rate per depositary share, subject to adjustment as described in the depositary shares preliminary prospectus supplement, based on the applicable market value of the common stock on the mandatory conversion date:

<b>Applicable Market Value Per Share on the Mandatory Conversion Date</b>	<b>Conversion Rate per Depositary Share</b>
Less than or equal to the initial price	0.5682 shares of common stock
Greater than the initial price and less than the threshold appreciation price	\$50, <i>divided by</i> the applicable market value
Equal to or greater than the threshold appreciation price	0.4582 shares of common stock

Optional conversion:

At any time prior to July 15, 2013, other than during the fundamental change conversion period and as long as no shares of fundamental change preferred stock (as defined in the depositary shares preliminary prospectus supplement) are outstanding, a holder of mandatory convertible preferred stock may elect to convert such holder's shares of mandatory convertible preferred stock at the minimum conversion rate of 9.164 shares of the common stock per share of mandatory convertible preferred stock (equivalent to 0.4582 shares of the common stock per depositary share), subject to adjustment as described in the depositary shares preliminary prospectus supplement. Because each depositary share represents a 1/20<sup>th</sup> fractional interest in a share of mandatory convertible preferred stock, a holder of depositary shares may only convert its depositary shares in lots of 20 depositary shares.

The exact stock price and effective date of the fundamental change may not be set forth on the table, in which case:

- if the stock price is between two stock price amounts on the table or the effective date is between two dates on the table, the fundamental change conversion rate will be determined by straight-line interpolation between the fundamental change conversion rates set forth for the higher and lower stock price amounts and the two dates, as applicable, based on a 365-day year;
- if the stock price is in excess of \$300.00 per share (subject to adjustment as described in the depositary shares preliminary prospectus supplement), then the fundamental change conversion rate will be the minimum conversion rate, subject to adjustment as described in the depositary shares preliminary prospectus supplement; and
- if the stock price is less than \$20.00 per share (subject to adjustment as described in the depositary shares preliminary prospectus supplement) (the “minimum stock price”), then the fundamental change conversion rate will be determined (a) as if the stock price equaled the minimum stock price and (b) if the effective date is between two dates on the table, using straight-line interpolation, as described in the depositary shares preliminary prospectus supplement, subject to adjustment.

The following table sets forth the fundamental change conversion rate per depositary share based on the effective date of the fundamental change and the stock price in the fundamental change:
