**APACHE OFFSHORE INVESTMENT PARTNERSHIP**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

Apache Offshore Investment Partnership, a Delaware general partnership (the Investment Partnership), was formed on October 31, 1983, consisting of Apache Corporation, a Delaware corporation (Apache or the Managing Partner), as Managing Partner and public investors (the Investing Partners). The Investment Partnership invested its entire capital in Apache Offshore Petroleum Limited Partnership, a Delaware limited partnership (the Operating Partnership). The primary business of the Investment Partnership is to serve as the sole limited partner of the Operating Partnership. The accompanying financial statements include the accounts of both the Investment Partnership and the Operating Partnership. The term "Partnership", as used herein, refers to the Investment Partnership or the Operating Partnership, as the case may be.

These financial statements have been prepared by the Partnership, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). They reflect all adjustments that are, in the opinion of management, necessary for a fair statement of the results for the interim periods, on a basis consistent with the annual audited financial statements. All such adjustments are of a normal, recurring nature. Certain information, accounting policies, and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP) have been omitted pursuant to such rules and regulations, although the Partnership believes that the disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the Partnership's Annual Report on Form 10-K for the fiscal year ended December 31, 2014, which contains a summary of the Partnership's significant accounting policies and other disclosures.

## **1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

As of June 30, 2015, the Partnership's significant accounting policies are consistent with those discussed in Note 2 of its consolidated financial statements contained in the Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

### **Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates with regard to these financial statements include the estimate of proved oil and gas reserves and related present value estimates of future net cash flow therefrom and asset retirement obligations. Actual results could differ from those estimates.

### **New Pronouncements Issued But Not Yet Adopted**

In May 2014, the Financial Accounting Standards Board (FASB) and the International Accounting Standards Board (IASB) issued a joint revenue recognition standard, ASU 2014-09. The new standard removes inconsistencies in existing standards, changes the way companies recognize revenue from contracts with customers, and increases disclosure requirements. The guidance requires companies to recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration to which the company expects to be entitled in exchange for those goods or services. On July 9, 2015, the FASB announced a delay in the effective date of the revenue standard by one year. The deferral results in the new revenue standard becoming effective for annual and interim periods beginning after December 15, 2017. The standard is required to be adopted using either the full retrospective approach, with all prior periods presented adjusted, or the modified retrospective approach, with a cumulative adjustment to retained earnings on the opening balance sheet. The Partnership is currently evaluating the level of effort needed to implement the standard, the impact of adopting this standard on its consolidated financial statements, and whether to use the full retrospective approach or the modified retrospective approach.

## 2. RECEIVABLE FROM / PAYABLE TO APACHE CORPORATION

The receivable from/payable to Apache represents the net result of the Investing Partners' revenue received and expenditures paid in the current month. Generally, cash in this amount will be paid by Apache to the Partnership or transferred to Apache in the month after the Partnership's transactions are processed and the net results of operations are determined.

## 3. RIGHT OF PRESENTMENT

As provided in the Partnership Agreement, as amended (the "Amended Partnership Agreement"), a first right of presentment valuation was computed during the first quarter of 2015. The per-unit value was determined to be \$9,765 based on the valuation date of December 31, 2014. The Partnership did not repurchase any Investing Partner Units (Units) during the first six months of 2015 as a result of the limited amount of cash available for discretionary purposes. The Partnership is not in a position to predict how many Units will be presented for repurchase during the remainder of 2015 and cannot, at this time, determine if the Partnership will have sufficient funds available to repurchase any Units. Pursuant to the Amended Partnership Agreement, the Partnership has no obligation to purchase any Units presented to the extent it determines that it has insufficient funds for such purchases.

## 4. ASSET RETIREMENT OBLIGATIONS

The following table describes the changes to the Partnership's asset retirement obligation liability for the first six months of 2015:

Asset retirement obligation at December 31, 2014	\$2,183,183
Accretion expense	64,530
Liabilities settled	(2,233)
Asset retirement obligation at June 30, 2015	2,245,480
Less current portion	(564,579)
Asset retirement obligation, long-term	<u>\$1,680,901</u>

## 5. FAIR VALUE MEASUREMENTS

Certain assets and liabilities are reported at fair value on a recurring basis in the Partnership's consolidated balance sheet. As of June 30, 2015, and December 31, 2014, the carrying amounts of the Partnership's current assets and current liabilities approximated fair value because of the short-term nature or maturity of these instruments.

The Partnership did not use derivative financial instruments or otherwise engage in hedging activities during the six months ended June 30, 2015, and 2014.

## ITEM 2 – MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion relates to Apache Offshore Investment Partnership (the Partnership) and should be read in conjunction with the Partnership’s consolidated financial statements and accompanying notes included under Part I, Item 1, “Financial Statements” of this Quarterly Report on Form 10-Q, as well as its consolidated financial statements, accompanying notes and related Management’s Discussion and Analysis of Financial Condition and Results of Operations, included in the Partnership’s Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

The Partnership’s business is participation in oil and gas exploration, development and production activities on federal lease tracts in the Gulf of Mexico, offshore Louisiana and Texas.

### Financial Overview

The Partnership reported net income of \$45,439 for the second quarter of 2015, down from \$206,131 in the second quarter of 2014. Net income per Investing Partner Unit decreased to \$11 per Unit in the second quarter of 2015, down from \$134 per Unit in the second quarter of 2014. Lower oil and gas prices in 2015 drove the decrease in earnings and net income per Investing Partner Unit from 2014.

During June 2015, the operator of North Padre Island 969 sent notification to the Partnership that they consider the field operations to be uneconomic. The operator proposed letting the extension of the leases expire on June 30, 2015, and the non-operators concur with their decision to abandon the field. The field had been taken off production in June 2014 and was projected to have minimal impact on the Partnership’s future production. The decision to forgo the extensive repairs required to restore production and meet safety requirements will reduce operating costs in 2015. Abandonment operations, which are provided for under the Partnership’s assets retirement obligations, will be scheduled in accordance with Bureau of Safety and Environmental Enforcement requirements and are expected to cost the Partnership approximately \$0.7 million over the next two years.

Net income for the six months ending June 30, 2015, totaled \$14,168 compared to \$335,362 for the six months ending June 30, 2014. Reflecting their non-cash depletion expense for the quarter, the Investing Partners recognized a per Unit loss of \$34 in the six-month period ending June 30, 2015. The Investing Partners net income per Unit totaled \$209 in the first six months of 2014. The decline in earnings and net income per Investing Partner Unit from 2014 reflected the impact of lower oil and gas prices in 2015.

### Results of Operations

Total revenues decreased 32 percent from the second quarter of 2014 to the second quarter of 2015 on lower oil and gas prices, while year-to-date revenues in 2015 decreased 33 percent from the first six months of 2014 on lower prices.

The Partnership’s oil, gas and natural gas liquids (NGL) production volume and price information is summarized in the following table (gas volumes are presented in thousand cubic feet (Mcf) per day):

	<u>For the Quarter Ended June 30,</u>			<u>For the Six Months Ended June 30,</u>		
	<u>2015</u>	<u>2014</u>	<u>Increase (Decrease)</u>	<u>2015</u>	<u>2014</u>	<u>Increase (Decrease)</u>
Gas volume – Mcf per day	300	254	18 %	318	292	9 %
Average gas price – per Mcf	\$ 2.65	\$ 6.06	(56)%	\$ 2.86	\$ 5.24	(45)%
Oil volume – barrels per day	73	55	33 %	73	58	26 %
Average oil price – per barrel	\$59.57	\$113.25	(47)%	\$ 58.10	\$ 107.08	(46)%
NGL volume – barrels per day	20	7	186 %	14	9	56 %
Average NGL price – per barrel	\$19.03	\$ 47.60	(60)%	\$ 19.23	\$ 38.94	(51)%

## ***Oil and Gas Sales***

Reflecting lower oil prices in 2015, the Partnership's crude oil sales for the second quarter of 2015 totaled \$397,653 compared to \$570,991 of crude oil sales in the second quarter of 2014. The Partnership's average realized price in the second quarter of 2015 decreased \$53.68 per barrel from the second quarter of 2014, reducing sales by \$270,652. Crude oil volumes on a per day basis increased from 55 barrels per day in 2014 to 73 barrels per day in 2015, increasing sales by \$97,314. The increase in volumes in 2015 was attributable to recompletions at South Timbalier 295 during the first quarter of 2015 and second half of 2014.

Natural gas sales in the second quarter of 2015 totaled \$72,366 or nearly half the amount realized in 2014. The Partnership's average realized natural gas price for the quarter decreased \$3.41 per Mcf, or 56 percent, from the second quarter of 2014, reducing sales by \$78,813 from a year ago. Natural gas volumes increased 18 percent from the second quarter of 2014, increasing sales by \$11,184. Increased production from recompletions at South Timbalier 295 more than offset productions declines at Ship Shoal 258/259 and North Padre Island 969.

During the second quarter of 2015, the Partnership sold 20 barrels per day of natural gas liquids, up from the second quarter of 2014 with the increased production at South Timbalier 295. The Partnership's average NGL price for the current quarter decreased 60 percent from a year ago to \$19.03 per barrel.

Crude oil sales for the six months of 2015 totaled \$0.8 million, down 32 percent from the same period in 2014. The Partnership's average realized oil price for the first six months of 2015 decreased 46 percent from the first six months of 2014, dropping to \$58.10 per barrel in 2015. The Partnership's crude oil volumes increased from 58 barrels per day during the first six months of 2014 to 73 barrels per day during the same period of 2015 as a result of recompletions at South Timbalier 295.

Natural gas sales for the first six months of 2015 decreased 41 percent from a year ago, dropping to \$164,912 in the current period from \$277,169 during the first six months of 2014. The Partnership's average realized gas prices decreased from \$5.24 per Mcf in the first six months of 2014 to \$2.86 per Mcf in 2015, reducing sales by \$125,902. A 26 Mcf per day, or 9 percent increase in natural gas volumes during the first six months of 2015 from the same period a year ago increased sales by \$13,645. The Partnership's increase in gas production in 2015 reflected the recompletions at South Timbalier 295.

The Partnership sold 14 barrels per day of natural gas liquids in the first six months of 2015, up from 9 barrels per day in the first six months of 2014. The increase reflected higher processed volumes at South Timbalier 295 in 2015. NGL prices for the first six months decreased 51 percent from a year ago, dropping to \$19.23 per barrel in 2015.

Since the Partnership does not anticipate acquiring additional acreage or conducting exploratory drilling on leases in which it currently holds an interest, declines in oil and gas production can be expected in future periods as a result of natural depletion. Also, given the small number of producing wells owned by the Partnership and exposure to inclement weather in the Gulf of Mexico, the Partnership's production during the remainder of 2015 and beyond may be subject to more volatility than those companies with a larger or more diversified property portfolio.

## ***Operating Expenses***

The Partnership's depreciation, depletion and amortization (DD&A) rate, expressed as a percentage of oil and gas sales, was approximately 25 percent for the second quarter of 2015 and 20 percent for the second quarter of 2014. DD&A, expressed as a percentage of oil and gas sales, for the first six months of 2015 and 2014 was 24 percent and 20 percent, respectively. The increase in the rate as a percentage of oil and gas sales in 2015 reflected the impact of declining oil and gas prices. The dollar amount of DD&A expense for the first six months of 2015 decreased from the comparable periods a year ago as a result of lower oil and gas sales in 2015.

The Partnership recognized \$32,499 in asset retirement obligation accretion for the second quarter of 2015 compared to \$31,801 for the second quarter of 2014. For the six months ending June 30, 2015, and 2014, the Partnership recognized asset retirement obligation accretion of \$64,530 and \$64,369, respectively.

Lease operating expenses (LOE) for the second quarter of 2015 of \$167,080 decreased 29 percent from the second quarter of 2014 on lower repair costs and the reduced cost resulting from shutting-in North Padre Island 969 and Matagorda Island 681/682. LOE for the first six months of 2015 was down 22 percent from the same period a year ago, decreasing to \$421,414 in the first six months of 2015. The decline in costs for the first six months reflected lower repair and workover costs in 2015, and lower costs on the shut-in of North Padre Island 969 and Matagorda Island 681/682. The operators of the properties are delaying discretionary repair work and other costs in light of reduced oil and gas prices and cash flow.

In the second quarter of 2015, gathering and transportation costs for the delivery of oil and gas totaled \$39,176. Gathering and transportation costs during the first six months of 2015 totaled \$68,407 compared to \$48,875 for the first six months of 2014. This increase of 40 percent from the same period in 2014 was primarily a result of higher oil, gas, and NGL volumes in 2015.

### **Capital Resources and Liquidity**

The Partnership's primary capital resource is net cash provided by operating activities, which totaled \$0.3 million for the first six months of 2015, down from \$0.4 million in the comparable period in 2014 as a result of lower oil and gas prices which negatively impacted the Partnership's 2015 earnings.

At June 30, 2015, the Partnership had approximately \$5.5 million in cash and cash equivalents, up from approximately \$5.3 million at December 31, 2014. The Partnership's goal is to maintain cash and cash equivalents at least sufficient to cover the undiscounted value of its future asset retirement obligation liability. The Partnership also plans to reserve funds for repairs which may disrupt the Partnership's production.

The Partnership's future financial condition, results of operations, and cash from operating activities will largely depend upon prices received for its oil and natural gas production. A substantial portion of the Partnership's production is sold under market-sensitive contracts. Prices for oil and natural gas are subject to fluctuations in response to changes in supply, market uncertainty, and a variety of factors beyond the Partnership's control. These factors include worldwide political instability, the foreign supply of oil and natural gas, the price of foreign imports, the level of consumer demand, and the price and availability of alternative fuels.

The Partnership's oil and gas reserves and production will also significantly impact future results of operations and cash from operating activities. The Partnership's production is subject to fluctuations in response to remaining quantities of oil and gas reserves, weather, pipeline capacity, consumer demand, mechanical performance and workover, recompletion and drilling activities. Declines in oil and gas production can be expected in future years as a result of normal depletion and the non-participation in acquisition or exploration activities by the Partnership. Based on production estimates from independent engineers and current market conditions, the Partnership forecasts it will be able to meet its liquidity needs for routine operations in the foreseeable future. The Partnership will reduce capital expenditures and distributions to partners as cash from operating activities declines.

In the event that future short-term operating cash requirements are greater than the Partnership's financial resources, the Partnership may seek short-term, interest-bearing advances from the Managing Partner as needed. The Managing Partner, however, is not obligated to make loans to the Partnership.

On an ongoing basis, the Partnership reviews the possible sale of lower value properties prior to incurring associated dismantlement and abandonment costs.

### **Capital Commitments**

The Partnership's primary needs for cash are for operating expenses, drilling and recompletion expenditures, future dismantlement and abandonment costs, distributions to Investing Partners, and the purchase of Units offered by Investing Partners under the right of presentment. To the extent there is discretion, the Partnership allocates available capital to investment in the Partnership's properties so as to maximize production and resultant cash flow. The Partnership had no outstanding debt or lease commitments at June 30, 2015. The Partnership did not have any contractual obligations as of June 30, 2015, other than the liability for dismantlement and abandonment costs of its oil and gas properties. The Partnership has recorded a separate liability for the present value of this asset retirement obligation as discussed in the notes to the financial statements included in the Partnership's latest annual report on Form 10-K.

During the first six months of 2015 the Partnership had capital expenditures \$16,335 for additions to oil and gas properties as it participated in two recompletion projects at South Timbalier 295 during the period. The Partnership's cash outlays for capital expenditures during the first six months of 2014 were minimal as the Partnership did not participate in any new drilling or recompletion projects during the first half of 2014. During the first six months of 2015, the Partnership made cash outlays of \$3,607 on abandonment costs at Matagorda Island 681/682, while funding \$84,817 on abandonment projects during the first six months of 2014. Based on information supplied by the operators of the properties, the Partnership anticipates capital expenditures of less than \$0.1 million during the remainder of 2015 as no new drilling projects are currently planned for 2015. Capital estimates may change based on realized prices, changes by the operator to the development plan, pipeline construction or modifications, or changes in government regulations. The operator of Matagorda Island 681/682 has indicated that abandonment of the field will occur during the second half of 2015 and the Partnership's share of cost is estimated at approximately \$0.3 million. Abandonment operations for North Padre Island 969 are currently expected to be performed over the next two years and cost the Partnership approximately \$0.7 million.

Because of declining oil and gas prices during the first six months of 2015 and the need to reserve cash for future asset retirement obligations, no distributions were made to Investing Partners during the first six months of 2015. The Partnership also made no distribution to Investing Partners during the first six months of 2014 as a result of the large amount of plugging costs funded by the Partnership during 2014.

The amount of future distributions will be dependent on actual and expected production levels, realized and anticipated oil and gas prices, expected drilling and recompletion expenditures, and prudent cash reserves for future dismantlement and abandonment costs that will be incurred after the Partnership's reserves are depleted. The Partnership's goal is to maintain cash and cash equivalents in the Partnership at least sufficient to cover the undiscounted value of its future asset retirement obligations. The Partnership will review available cash balances, any development or abandonment plans submitted by the operators of the Partnership's properties, and the factors noted above to determine whether there are sufficient funds to make a distribution to Investing Partners during the second half of 2015.

As provided in the Partnership Agreement, as amended (the "Amended Partnership Agreement"), a first right of presentment valuation was computed during the first quarter of 2015. The per-unit value was determined to be \$9,765 based on the valuation date of December 31, 2014. The Partnership did not repurchase any Investing Partner Units (Units) during the first six months of 2015 as a result of the limited amount of cash available for discretionary purposes. The Partnership is not in a position to predict how many Units will be presented for repurchase during the remainder of 2015 and cannot, at this time, determine if the Partnership will have sufficient funds available to repurchase any Units. Pursuant to the Amended Partnership Agreement, the Partnership has no obligation to repurchase any Units presented to the extent it determines that it has insufficient funds for such purchases.

## ITEM 3 – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

### Commodity Risk

The Partnership's major market risk exposure is in the pricing applicable to its oil and gas production. Realized pricing is primarily driven by the prevailing worldwide price for crude oil and spot prices applicable to its natural gas production. Prices received for the Partnership's crude oil, natural gas, and NGLs have historically been and continue to be very volatile because of unpredictable events such as economic growth or retraction, weather, political climate, and global supply and demand. The Partnership did not use derivative financial instruments or otherwise engage in hedging activities during the first six months of 2015 or 2014.

The information set forth under "Commodity Risk" in Item 7A of the Partnership's Form 10-K for the year ended December 31, 2014, is incorporated by reference. Information about market risks for the current quarter is not materially different.

### Forward-Looking Statements and Risk

This report includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical facts included or incorporated by reference in this report, including, without limitation, statements regarding our future financial position, business strategy, budgets, projected revenues, projected costs and plans, and objectives of management for future operations, are forward-looking statements. Such forward-looking statements are based on our examination of historical operating trends, the information that was used to prepare our estimate of proved reserves as of December 31, 2014, and other data in our possession or available from third parties. In addition, forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expect," "intend," "project," "estimate," "anticipate," "believe," or "continue" or similar terminology. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to have been correct. Important factors that could cause actual results to differ materially from our expectations include, but are not limited to, our assumptions about:

- the market prices of oil, natural gas, NGLs and other products or services;
- the supply and demand for oil, natural gas, NGLs and other products or services;
- production and reserve levels;
- drilling risks;
- economic and competitive conditions;
- the availability of capital resources;
- capital expenditure and other contractual obligations;
- weather conditions;
- inflation rates;
- the availability of goods and services;
- legislative or regulatory changes;
- terrorism and cyber-attacks;
- occurrence of property acquisitions or divestitures;
- the securities or capital markets and related risks such as general credit, liquidity, market and interest-rate risks; and

- other factors disclosed under Items 1 and 2 – “Business and Properties — Estimated Proved Reserves and Future Net Cash Flows,” Item 1A – “Risk Factors,” Item 7 – “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” Item 7A – “Quantitative and Qualitative Disclosures About Market Risk,” and elsewhere in our most recently filed Form 10-K.

All subsequent written and oral forward-looking statements attributable to the Partnership, or persons acting on its behalf, are expressly qualified in their entirety by the cautionary statements. We assume no duty to update or revise our forward-looking statements based on changes in internal estimates or expectations or otherwise.

#### **ITEM 4 – CONTROLS AND PROCEDURES**

##### **Disclosure Controls and Procedures**

John J. Christmann, the Managing Partner’s Chief Executive Officer and President (in his capacity as principal executive officer), and Stephen J. Riney, the Managing Partner’s Executive Vice President and Chief Financial Officer (in his capacity as principal financial officer), evaluated the effectiveness of the Partnership’s disclosure controls and procedures as of June 30, 2015, the end of the period covered by this report. Based on that evaluation and as of the date of that evaluation, these officers concluded that the Partnership’s disclosure controls and procedures were effective, providing effective means to ensure that the information it is required to disclose under applicable laws and regulations is recorded, processed, summarized and reported within the time periods specified under the Commission’s rules and forms and communicated to our management, including the Managing Partner’s principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

##### **Changes in Internal Control over Financial Reporting**

There was no change in our internal controls over financial reporting during the period covered by this quarterly report on Form 10-Q that materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

### **PART II—OTHER INFORMATION**

#### **ITEM 1. LEGAL PROCEEDINGS**

None.

#### **ITEM 1A. RISK FACTORS**

During the six months ended June 30, 2015, there were no material changes from the risk factors as previously disclosed in the Partnership’s Form 10-K for the year ended December 31, 2014.

#### **ITEM 2. UNREGISTERED SALES OF EQUITY IN SECURITIES AND USE OF PROCEEDS**

None.

#### **ITEM 3. DEFAULTS UPON SENIOR SECURITIES**

None.

#### **ITEM 4. MINE SAFETY DISCLOSURES**

None.

#### **ITEM 5. OTHER INFORMATION**

None.

## CERTIFICATIONS

I, John J. Christmann, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Apache Offshore Investment Partnership;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information ; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
