Forward-Looking Statements and Risk

This report includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical facts included or incorporated by reference in this report, including, without limitation, statements regarding our future financial position, business strategy, budgets, projected revenues, projected costs and plans, and objectives of management for future operations, are forward-looking statements. Such forward-looking statements are based on our examination of historical operating trends, the information that was used to prepare our estimate of proved reserves as of December 31, 2018, and other data in our possession or available from third parties. In addition, forward-looking statements generally can be identified by the use of forward-looking terminology such as “may,” “will,” “expect,” “intend,” “project,” “estimate,” “anticipate,” “believe,” or “continue” or similar terminology. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to have been correct. Important factors that could cause actual results to differ materially from our expectations include, but are not limited to, our assumptions about:

- the market prices of oil, natural gas, NGLs and other products or services;
- the supply and demand for oil, natural gas, NGLs and other products or services;
- pipeline and gathering system capacity;
- production and reserve levels;
- drilling risks;
- economic and competitive conditions;
- the availability of capital resources;
- capital expenditure and other contractual obligations;
- weather conditions;
- inflation rates;
- the availability of goods and services;
- legislative or regulatory changes, including environmental regulation;
- terrorism and cyber-attacks;
- capital markets and related risks such as general credit, liquidity, market, and interest-rate risks; and
- other factors disclosed under Item 1A – “Risk Factors,” Item 2 – “Properties — Estimated Proved Reserves and Future Net Cash Flows,” Item 7 – “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” Item 7A – “Quantitative and Qualitative Disclosures About Market Risk” and elsewhere in our most recently filed Form 10-K.

All subsequent written and oral forward-looking statements attributable to the Partnership, or persons acting on its behalf, are expressly qualified in their entirety by the cautionary statements. We assume no duty to update or revise our forward-looking statements based on changes in internal estimates or expectations or otherwise.

APACHE OFFSHORE INVESTMENT PARTNERSHIP
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Apache Offshore Investment Partnership, a Delaware general partnership (the Investment Partnership), was formed on October 31, 1983, consisting of Apache Corporation, a Delaware corporation (Apache or the Managing Partner), as Managing Partner and public investors (the Investing Partners). The Investment Partnership invested its entire capital in Apache Offshore Petroleum Limited Partnership, a Delaware limited partnership (the Operating Partnership). The primary business of the Investment Partnership is to serve as the sole limited partner of the Operating Partnership. The accompanying financial statements include the accounts of both the Investment Partnership and the Operating Partnership. The term “Partnership,” as used herein, refers to the Investment Partnership or the Operating Partnership, as the case may be.

These financial statements have been prepared by the Partnership, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). They reflect all adjustments that are, in the opinion of management, necessary for a fair statement of the results for the interim periods, on a basis consistent with the annual audited financial statements, with the exception of recently adopted accounting pronouncements discussed below. All such adjustments are of a normal, recurring nature. Certain information, accounting policies, and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP) have been omitted pursuant to such rules and regulations, although the Partnership believes that the disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the Partnership’s Annual Report on Form 10-K for the fiscal year ended December 31, 2018, which contains a summary of the Partnership’s significant accounting policies and other disclosures.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As of June 30, 2019, the Partnership’s significant accounting policies are consistent with those discussed in Note 2 of its consolidated financial statements contained in the Annual Report on Form 10-K for the fiscal year ended December 31, 2018 with the exception of Accounting Standards Update (ASU) 2016-02, “Leases (Topic 842)” (see “Recently Adopted Accounting Pronouncement” section in this Note 1 below).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates with regard to these financial statements include the estimate of proved oil and gas reserve quantities and the related present value of estimated future net cash flows therefrom and the assessment of asset retirement obligations. Actual results could differ from those estimates.

Oil and Gas Property

The Partnership follows the full-cost method of accounting for its oil and gas property. Under this method of accounting, all costs incurred for both successful and unsuccessful exploration and development activities, and oil and gas property acquisitions are capitalized. The net book value of oil and gas properties may not exceed a calculated “ceiling.” The ceiling limitation is the estimated future net cash flows from proved oil and gas reserves, discounted at 10 percent per annum. Estimated future net cash flows are calculated using end-of-period costs and an unweighted arithmetic average of commodity prices in effect on the first day of each of the previous 12 months, held flat for the life of the production, except where prices are defined by contractual arrangements. For a discussion of the calculation of estimated future net cash flows, please refer to Note 10—Supplemental Oil and Gas Disclosures to the consolidated financial statements contained in the Partnership’s Annual Report on Form 10-K for the fiscal year ended December 31, 2018.

Any excess of the net book value of proved oil and gas properties over the ceiling is charged to expense and reflected as “Additional depreciation, depletion and amortization” in the accompanying statement of consolidated operations. Such limitations are tested quarterly. The Partnership had no write-downs of the carrying value of its proved oil and gas properties during the first six months of 2019 and 2018.

Revenue Recognition

The Partnership applies the provisions of ASC 606 for revenue recognition to contracts with customers. Sales of crude oil, natural gas, and natural gas liquids (NGLs) are included in revenue when production is sold to a customer in fulfillment of performance obligations under the terms of agreed contracts. Performance obligations primarily comprise delivery of oil, gas, or NGLs at a delivery point, as negotiated within each contract. Each barrel of oil, MMBtu of natural gas, or other unit of measure is separately identifiable and represents a distinct performance obligation to which the transaction price is allocated. Performance obligations are satisfied at a point in time once control of the product has been transferred to the customer. The Partnership considers a variety of facts and circumstances in assessing the point of control transfer, including but not limited to: whether the purchaser can direct the use of the hydrocarbons, the transfer of significant risks and rewards, the Partnership's right to payment, and transfer of legal title. In each case, the term between delivery and when payments are due is not significant. For the three and six months ended June 30, 2019, revenues from customers totaled \$302,027 and \$601,538, respectively. For the three and six months ended June 30, 2018, revenues from customers totaled \$357,112 and \$711,520, respectively.

Apache, as Managing Partner of the Partnership, markets the Partnership's share of oil production from South Timbalier 295, the Partnership's largest source of revenue. Apache primarily markets to major oil companies, marketing and transportation companies, and refiners at current index prices, adjusted for quality, transportation, and market reflective differentials. The Partnership markets all other production under the joint operating agreements with the operator of its properties. The operator seeks and negotiates oil and gas marketing arrangements with various marketers and purchasers. These contracts provide for sales that are priced at prevailing market prices.

The Partnership records trade accounts receivable for its unconditional rights to consideration arising under sales contracts with customers. The carrying value of such receivables, net of the allowance for doubtful accounts, represents estimated net realizable value. The Partnership routinely assesses the collectability of all material trade and other receivables. The Partnership accrues a reserve on a receivable when, based on the judgment of management, it is probable that a receivable will not be collected and the amount of any reserve may be reasonably estimated. As of June 30, 2019, the carrying amounts of trade accounts receivables approximate fair value because of the short-term nature of these instruments. Receivables from contracts with customers totaled \$98,936 and \$120,116 as of June 30, 2019 and December 31, 2018, respectively. The Partnership had no allowance for doubtful accounts recorded for all comparative periods presented.

The Partnership has concluded that disaggregating revenue by product appropriately depicts how the nature, amount, timing, and uncertainty of revenue and cash flows are affected by economic factors. The table below presents the total oil, gas, and NGLs revenues of the Partnership for the quarters and six months ended June 30, 2019 and 2018:

	For the Quarter Ended June 30,		For the Six Months Ended June 30,	
	2019	2018	2019	2018
Oil	\$ 272,263	\$ 323,015	\$ 535,146	\$ 637,501
Gas	22,297	24,209	53,858	55,334
NGLs	7,467	9,888	12,534	18,685
Total Oil and Gas Revenue	\$ 302,027	\$ 357,112	\$ 601,538	\$ 711,520

Recently Adopted Accounting Pronouncement

On January 1, 2019, the Partnership adopted ASU 2016-02, "Leases (Topic 842)" on a prospective basis. The Partnership elected to adopt two transitional expedients issued by the FASB during 2018: (i) ASU 2018-01, which permits an entity an optional election to not evaluate under ASU 2016-02 those existing or expired land easements that were not previously accounted for as leases prior to the adoption of ASU 2016-02 and (ii) ASU 2018-11, which adds a transition option permitting entities to apply the provisions of the new standard at its adoption date instead of the earliest comparative period presented in the consolidated financial statements. Under this transition option, comparative reporting would not be required and the provisions of the standard would be applied prospectively to leases in effect at the date of adoption. The adoption of ASU 2016-02 did not have a material impact on the Partnership's consolidated financial statements.

2. RECEIVABLE FROM / PAYABLE TO APACHE CORPORATION

The receivable from/payable to Apache represents the net result of the Investing Partners' revenue received and expenditures paid in the current month. Generally, cash in this amount will be paid by Apache to the Partnership or transferred to Apache in the month after the Partnership's transactions are processed and the net results of operations are determined.

3. ASSET RETIREMENT OBLIGATIONS

The following table describes the changes to the Partnership's asset retirement obligation liability for the first six months of 2019:

Asset retirement obligation at December 31, 2018	\$	1,635,812
Accretion expense		39,150
Liabilities settled		(52,758)
Revisions in estimated liabilities		79,993
Asset retirement obligation at June 30, 2019		1,702,197
Less current portion		(402,582)
Asset retirement obligation, long-term	\$	1,299,615

4. FAIR VALUE MEASUREMENTS

Certain assets and liabilities are reported at fair value on a recurring basis in the Partnership's consolidated balance sheet. As of June 30, 2019 and December 31, 2018, the carrying amounts of the Partnership's current assets and current liabilities approximated fair value because of the short-term nature or maturity of these instruments.

The Partnership did not use derivative financial instruments or otherwise engage in hedging activities during the six months ended June 30, 2019 and 2018.

5. NOTICE OF WITHDRAWAL AND RIGHT OF PRESENTMENT

As previously announced, Apache, as the Managing Partner of the Investment Partnership gave notice on March 22, 2019 of its intention to withdraw as Managing Partner of the Investment Partnership. The notice described the withdrawal process and certain notice periods required by that process. No party assumed the role of Managing Partner within the 120 day notice period specified by the notice of intention to withdraw. Consequently, Apache will oversee the process of winding up and liquidating the business and affairs of the Investment Partnership.

The Managing Partner determined that, during the withdrawal and dissolution process, it would be inconsistent with the Managing Partner's fiduciary duties to purchase (or to cause the Investment Partnership to purchase) outstanding units of partnership interests ("Units") from the holders thereof pursuant to the right of presentment provided for in Sections 6.9 through 6.14 of the Partnership Agreement of the Investment Partnership (the "Partnership Agreement"). As a result of this determination by the Managing Partner, pursuant to Section 6.12 of the Partnership Agreement, the right of presentment has been terminated and Sections 6.9 through 6.14 have "become null and void and of no further force or effect" as provided in Section 6.12.

The Investment Partnership has not made a repurchase under the right of presentment since 2008.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion relates to Apache Offshore Investment Partnership (the Partnership) and should be read in conjunction with the Partnership's consolidated financial statements and accompanying notes included under Part I, Item 1, "Financial Statements" of this Quarterly Report on Form 10-Q, as well as its consolidated financial statements, accompanying notes and related Management's Discussion and Analysis of Financial Condition and Results of Operations, included in the Partnership's Annual Report on Form 10-K for the fiscal year ended December 31, 2018.

The Partnership's business is participation in oil and gas development and production activities on federal lease tracts in the Gulf of Mexico, offshore Louisiana.

Results of Operations

Net Income and Revenue

The Partnership reported net income of \$58,710 (\$37 per Investing Partner Unit) for the second quarter of 2019 compared to a net income of \$66,357 (\$41 per Investing Partner Unit) in the second quarter of 2018. For the first six months of 2019, the Partnership reported net income of \$93,104 (\$56 per Investing Partner Unit) compared to a net income of \$114,273 (\$65 per Investing Partner Unit) in the first six months of 2018.

Total revenues in the second quarter of 2019 decreased 12 percent from the second quarter of 2018 primarily on lower crude oil production and prices. Total revenues in the first six months of 2019 also decreased 12 percent from the first six months of 2018 on lower crude oil production and prices. The Partnership's crude oil, natural gas, and natural gas liquids (NGL) production volume and price information is summarized in the following table (gas volumes are presented in thousand cubic feet (Mcf) per day):

	For the Quarter Ended June 30,			For the Six Months Ended June 30,		
	2019	2018	Increase (Decrease)	2019	2018	Increase (Decrease)
Gas volume – Mcf per day	92	102	(10)%	103	101	2 %
Average gas price – per Mcf	\$ 2.65	\$ 2.61	2 %	\$ 2.90	\$ 3.04	(5)%
Oil volume – barrels per day	49	53	(8)%	50	55	(9)%
Average oil price – per barrel	\$ 61.67	\$ 66.60	(7)%	\$ 58.74	\$ 64.45	(9)%
NGL volume – barrels per day	4	5	(20)%	4	4	— %
Average NGL price – per barrel	\$ 20.90	\$ 22.87	(9)%	\$ 18.93	\$ 23.43	(19)%

Oil and Gas Sales

The Partnership's crude oil sales for the second quarter of 2019 totaled \$272,263 compared to \$323,015 in the second quarter of 2018. The Partnership's average realized oil price in the second quarter of 2019 decreased \$4.93 per barrel from the second quarter of 2018, reducing sales by \$23,901. Crude oil volumes decreased to 49 barrels per day in the second quarter of 2019, compared to 53 barrels per day in the prior year period as a result of natural depletion. The decrease in production reduced oil sales by \$26,851.

Natural gas sales of \$22,297 were recognized in the second quarter of 2019, down 8 percent from the amount realized for the equivalent 2018 period. The Partnership's average realized natural gas price for the quarter increased \$0.04 per Mcf, or 2 percent, from the second quarter of 2018, slightly increasing sales by \$333. The increase in price was more than offset by a decrease in natural gas volumes of 10 percent from the second quarter of 2018, reducing sales by \$2,245. The decrease in production is the result of natural depletion.

Crude oil sales for the first six months of 2019 totaled \$535,146 compared to \$637,501 from the first six months of 2018. The Partnership's average realized oil price for the first six months of 2019 decreased \$5.71 per barrel from the first six months of 2018, decreasing sales by \$56,478. The Partnership's crude oil volumes decreased to 50 barrels per day during the first six months of 2019, compared to 55 barrels per day in the prior year period as a result of natural depletion. The decrease in production reduced oil sales by \$45,877.

Natural gas sales of \$53,858 were recognized in the first six months of 2019, down 3 percent from the amount realized for the equivalent 2018 period. The Partnership's average realized natural gas price for the first six months of 2019 decreased \$0.14, or 5 percent, from the first six months of 2018, reducing sales by \$2,552. A slight increase in natural gas volumes of 2 Mcf per day, or 2 percent, during the first six months of 2019 compared to the same period a year ago increased sales by \$1,076.

The Partnership sold 4 barrels per day of NGL in the first six months of 2019, no change from 4 barrels per day in the first six months of 2018. NGL revenues decreased as a result of 19 percent lower average realized NGL prices during the first six months of 2019 compared to the same prior year period.

Since the Partnership does not anticipate acquiring additional acreage or conducting exploratory drilling on leases in which it currently holds an interest, declines in oil and gas production can be expected in future periods as a result of natural depletion. Also, given the small number of producing wells owned by the Partnership and exposure to inclement weather and pipeline interruptions in the Gulf of Mexico, the Partnership's production may be subject to more volatility than those companies with a larger or more diversified property portfolio.

Operating Expenses

The Partnership's recurring depreciation, depletion and amortization (DD&A), expressed as a percentage of oil and gas sales, was approximately 24 percent for the second quarter and first six months of 2019 and 22 percent for the second quarter and first six months of 2018. The dollar amount of recurring DD&A expense for the first six months and second quarter of 2019 decreased from the comparable periods a year ago as a result of lower sales volumes.

Under the full cost method of accounting, the Partnership is required to review the carrying value of its proved oil and gas properties each quarter. Under these rules, capitalized costs of oil and gas properties, net of accumulated DD&A, may not exceed the present value of estimated future net cash flows from proved oil and gas reserves discounted at 10 percent per annum. Estimated future net cash flows are calculated using end-of-period costs and an unweighted arithmetic average of commodity prices in effect on the first day of each of the previous 12 months, held flat for the life of the production, except where prices are defined by contractual arrangements. The Partnership had no write-downs of the carrying value of its oil and gas properties during the first six months of 2019 and 2018. If commodity prices experience declines to levels lower than prices realized in the previous 12 months, the Partnership may be required to recognize non-cash write-downs of the carrying value of its oil and gas properties in future periods, which would be reflected as additional DD&A expense on the statement of consolidated operations.

Lease operating expenses (LOE) for the second quarter of 2019 of \$93,115 decreased 23 percent from the second quarter of 2018, reflecting lower operating activities from the previous period. LOE for the first six months of 2019 of \$208,722 decreased 16 percent from the same prior year period. Gathering and transportation costs for the delivery of oil and gas remained flat from comparable periods in 2018, totaling \$3,928 and \$8,698 in the second quarter and first six months of 2019, respectively. Administrative expenses for the second quarter and first six months of 2019 increased 2 percent compared to the same periods in 2018.

Capital Resources and Liquidity

The Partnership's primary capital resource is net cash provided by operating activities. During the first six months of 2019 and 2018, the Partnership had \$153,516 and \$271,792, respectively, of positive cash flows from operating activities. The decrease primarily reflects current period abandonment activities and lower revenues.

At June 30, 2019, the Partnership had approximately \$5.2 million in cash and cash equivalents, up slightly from December 31, 2018. The Partnership's goal is to maintain cash and cash equivalents at least sufficient to cover the undiscounted value of its future asset retirement obligation liability. The Partnership also plans to reserve funds for repairs which may disrupt the Partnership's production and for future recompletion operations.

The Partnership's future financial condition, results of operations, and cash from operating activities will largely depend upon prices received for its oil and natural gas production. A substantial portion of the Partnership's production is sold under market-sensitive contracts. Prices for oil and natural gas are subject to fluctuations in response to changes in supply, market uncertainty, and a variety of factors beyond the Partnership's control. These factors include worldwide political and economic conditions, the foreign and domestic supply of oil and natural gas, the price of foreign imports, the level of consumer demand, weather, and the price and availability of alternative fuels.

The Partnership's oil and gas reserves and production will also significantly impact future results of operations and cash from operating activities. The Partnership's production is subject to fluctuations in response to remaining quantities of oil and gas reserves, weather, pipeline capacity, consumer demand, mechanical performance and workover, and recompletion activities. Declines in oil and gas production can be expected in future years as a result of normal depletion and the non-participation in acquisition or exploration activities by the Partnership. Based on production estimates from independent engineers and current market conditions, the Partnership forecasts it will be able to meet its liquidity needs for routine operations in 2019 and 2020. The Partnership will reduce capital expenditures and distributions to partners as cash from operating activities declines.

In the event that future short-term operating cash requirements are greater than the Partnership's financial resources, the Partnership may seek short-term, interest-bearing advances from the Managing Partner as needed. The Managing Partner, however, is not obligated to make loans to the Partnership.

Capital Commitments

The Partnership's primary needs for cash are for operating expenses, recompletion expenditures, and future dismantlement and abandonment costs. To the extent there is discretion, the Partnership allocates available capital to investment in the Partnership's properties so as to maximize production and resultant cash flow. The Partnership had no outstanding debt or lease commitments at June 30, 2019. The Partnership did not have any contractual obligations as of June 30, 2019, other than the liability for dismantlement and abandonment costs of its oil and gas properties. The Partnership has recorded a separate liability for the present value of this asset retirement obligation as discussed in the notes to the financial statements included in the Partnership's latest annual report on Form 10-K.

The Partnership anticipates minimal capital expenditures during the remainder of 2019. Approximately \$0.4 million is estimated to be spent during 2019 to abandon wells at Ship Shoal 258/259 and to remove idle platforms at North Padre Island 969/976. The abandonment activity at North Padre Island 969/976 was originally scheduled to commence prior to 2018, but has been deferred to late 2019 and early 2020 pending approval from regulators. Such estimates may change based on realized oil and gas prices, recompletion results, rates charged by contractors or changes by the operator to their development or abandonment plans.

Notice of Withdrawal and Right of Presentment

As previously announced, Apache, as the Managing Partner of the Investment Partnership gave notice on March 22, 2019 of its intention to withdraw as Managing Partner of the Investment Partnership. The notice described the withdrawal process and certain notice periods required by that process. No party assumed the role of Managing Partner within the 120 day notice period specified by the notice of intention to withdraw. Consequently, Apache will oversee the process of winding up and liquidating the business and affairs of the Investment Partnership.

On April 26, 2019, the Managing Partner determined that, during the withdrawal and dissolution process, it would be inconsistent with the Managing Partner's fiduciary duties to purchase (or to cause the Investment Partnership to purchase) outstanding units of partnership interests ("Units") from the holders thereof pursuant to the right of presentment provided for in Sections 6.9 through 6.14 of the Partnership Agreement of the Investment Partnership (the "Partnership Agreement"). As a result of this determination by the Managing Partner, pursuant to Section 6.12 of the Partnership Agreement, the right of presentment has been terminated and Sections 6.9 through 6.14 have "become null and void and of no further force or effect" as provided in Section 6.12.

The Investment Partnership has not made a repurchase under the right of presentment since 2008.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Commodity Risk

The Partnership's major market risk exposure is in the pricing applicable to its oil and gas production. Realized pricing is primarily driven by the prevailing worldwide price for crude oil and spot prices applicable to its natural gas production. Prices received for the Partnership's crude oil, natural gas, and NGLs have historically been and continue to be very volatile because of unpredictable events such as economic growth or retraction, weather, political climate, and global supply and demand. The Partnership did not use derivative financial instruments or otherwise engage in hedging activities during the first six months of 2019 or 2018.

The information set forth under "Commodity Risk" in Item 7A of the Partnership's Form 10-K for the year ended December 31, 2018, is incorporated by reference. Information about market risks for the current quarter is not materially different.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

John J. Christmann IV, the Managing Partner's Chief Executive Officer and President (in his capacity as principal executive officer), and Stephen J. Riney, the Managing Partner's Executive Vice President and Chief Financial Officer (in his capacity as principal financial officer), evaluated the effectiveness of the Partnership's disclosure controls and procedures as of June 30, 2019, the end of the period covered by this report. Based on that evaluation and as of the date of that evaluation, these officers concluded that the Partnership's disclosure controls and procedures were effective, providing effective means to ensure that the information it is required to disclose under applicable laws and regulations is recorded, processed, summarized and reported within the time periods specified under the Commission's rules and forms and communicated to our management, including the Managing Partner's principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There was no change in our internal controls over financial reporting during the period covered by this quarterly report on Form 10-Q that materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

During the six months ended June 30, 2019, there were no material changes from the risk factors as previously disclosed in the Partnership's Form 10-K for the year ended December 31, 2018.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

None.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

CERTIFICATIONS

I, John J. Christmann IV, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Apache Offshore Investment Partnership;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
